## Plan Sunday School Institutes

## High River Presbytery Discusses Varied Business

The High River Presbytery of the United Church met in High River on Feb. 14-15; Rev. E. W. Aldring of Claresholm presiding. Presbyters were in attendance from Okotoks, Alderside, Turner Valley, Hartell, High River, Cayley, Nanton, Parkland, Stavely, Claresholm, Granum, Champion, Milo and Vulcan. The following came from a distance: Rev. A. D. Stadel, Superintendent of Missions, Regina; Rev. W. J. H. Smyth, the newly-appointed field secretary for the Missionary and Maintenance Department, Saskatoon; Rev. R. S. Christie, field secretary for Evangelism and Social Service, Vancouver; Rev. Reid Vipond, president of the Alberta Conference, and Rev. M. A. Johnson, field secretary of Christian Education, both of Edmonton.

Rev. E. W. Aldring and the minister of the High River Church, Rev. J. Sorochan, conducted the Communion Service.

The following items of general interest are taken from the reports of committees.

Two Sunday School Institutes are being planned for March. The charges have a responsibility to help provide mature leadership for summer camps as well as to encourage the attendance of our young people. The Couples Club of the Presbytery are looking for a suitable site on which to build camping facilities. A girls work secretary for the conference is being sought.

Rev. J. S. Clark of Vulcan, reported the highest amount yet raised by the presbytery for the Missionary and Maintenance Fund. The conference increased its giving to this fund about 19 percent over 1955. The increase across Canada was about 12 percent. Statistics reported by Rev. A. E. Loree of Okotoks showed \$10,683 raised for Missionary and Maintenance and \$129,297 raised for all purposes, of which the Women's Auxiliaries raised \$19,678. There are over 7400 persons under pastoral oversight. 179 new members were received during the year.

Recruits for Overseas Mission fields are urgently needed as well as recruits for the ministry in Canada. The president of conference, who had travelled over the province, dedicating churches, visiting presbyteries and charges, had spent a weekend in December at Yellowknife. He expressed the hope that an ordained minister might be sent there next summer.

Mrs. Roy Fowler of Alderside reported for the Presbytery Women's Missionary Society. This organization raised for Missionary work over \$3,800 in 1956. Their annual presbyterial will meet in High River on Tuesday, Feb. 26, when a missionary from Japan, Miss Gertrude Hamilton, will speak both afternoon and evening.

Mrs. H. B. MacLeod of High River brought greeting from the presbytery W.A. and spoke of their aim to be well-informed on all matters that concern the whole church. The presbytery W.A. will meet at Nanton on March 6.

Rev. S. R. Hunt of Turner Valley reported for the Evangelism and Social Service Committee, sponsored several resolutions.

1. To the provincial government re charges in the Liquor Control Act, indicating continued resistance to increased outlets of sale and our support of efficient enforcement of the present law.

2. Assured support to farm organizations in the presentation of their case to the people and governments of Canada.

3. Called upon the people to study, prayer and work in regard to the cause of world-tension, following the way of reconciliation through disarmament and established Department for International Co-operation.

Rev. C. D. Powell of Nanton reported for Home Missions. Presbytery approved the request of Milo that Mr. Wyrwas be returned as summer student this year.

Presbytery appointed a commission of three ministers and two laymen to study the distribution of ministers in the entire presbytery.

Rev. C. D. Powell was nominated as the successor to Rev. Dr. T. Hart, Superintendent of Missions for Northern Alberta.

Mr. Roy Fowler asked that each pastoral charge prepare a history of the local church, to be sent to the conference archives.

Consent was given to Blackie

## Lake Yields 19 lb. Pike

One of the largest pike to come out of Lake McGregor this season got tangled up in Reg Sansome's whitefish net on Monday of this week and was brought to the Advocate office by Reg's son on Tuesday.

The big fish was 40 inches long and weighed 19 lbs., and was much thicker in girth than the average pike.

Commercial fishing for whitefish was re-opened at Lake McGregor on March 1 and catches are reported to be fair.

The scholarship is awarded on the basis of a single piece of original writing of approximately 3,000 words in the form of an essay, a short story or a drama for stage or radio, or the entry may consist of a selection of poetry of approximately 100 lines.

The amount of the scholarship is \$150, and this year the Banff School of Fine Arts will supplement this amount with a tuition scholarship of \$40.

## 41 Men on Three-week School

## Hold Joint Civil Defence-Army Rescue Operations Training Course

One of the first extension courses in Rescue by the Civil Defence Training School at Edmonton, started in Vulcan Monday evening, March 4, and will run until March 22. This school has been arranged to train local volunteer Civil Defence workers in Rescue Work and at the same time train a rescue team composed of members of "A" Company, Calgary Highlanders.

The school was officially opened on Monday, March 4, at 8 p.m. by Lt. Col. A. Lavoie, assistant to A.V.M. Howsam, Provincial Civil Defence Co-ordinator. In his opening remarks Lt. Col. Lavoie outlined the changes that have come about in our way of life due to the thermo-nuclear age in which we now live and that Civil Defence work has become a duty of citizenship. He pointed out to the class that this course would qualify them as rescue workers and should any of them wish to take an Instructor's Certificate, they would be required to attend a further one week course in Edmonton.

D. D. McQueen, secretary-treasurer, of the Vulcan Civil Defence Unit spoke briefly to the class and wished them every success in the course. He pointed out that the Vulcan Unit had a number of firsts in Civil Defence activities and felt that all would benefit from the course they were about to commence.

M. R. Morrison, Deputy Mayor of Vulcan, extended greetings to the class from the Town of Vulcan, and offered to assist the group in any way possible. He felt that the district could be proud of the interest being taken by the citizens residing within the boundaries of the County of Vulcan and the small municipalities within that boundary.

W. A. Shields, Civil Defence Director for the Vulcan C.D. Unit, introduced the instructors for the course. Chief Instructor Joe Henderson has spent 10 years as a Pit Boss and Strip Mine Manager and four years as Mine Rescue Supt., for Workmen's Compensation Board. He has been with Civil Defence for four years and taken instructional courses in Civil Defence Rescue at the Alberta C.D. Rescue Instructors Course, Federal C.D. Rescue Instructors Course at Arnprior, Ontario and the United States Federal C.D. Instructors Course at Olney, Maryland, U.S.A.

Instructor Jim Robertson has spent 10 years with the Calgary Fire Department and organized the Jasper Fire Department. He spent one year in the Provincial Fire Commissioners Office and during World War II was a member of the Canadian Fire Services in England. He has been on the instructional staff of the Civil Defence School in Edmonton for a number of years and has taken instructional courses in Rescue at

both Edmonton and Arnprior, Ontario. He is secretary to the Provincial Fire Committee and the Provincial Equipment and Supplies Committee.

The third instructor for the course has been loaned by the Western Command of the Canadian Army, Sgt. R. T. Hibbett of the Royal Canadian Artillery arrived from Victoria, B.C., to assist in this course. He has been a member of the regular army for eight years and has spent seven years on instructional duties. He has spent two years at Vernon Cadet Camp, and is a qualified Group 4 Instructor of Radar and Gunnery Anti-aircraft branch and is a graduate instructor from the Federal Civil Defence Rescue School at Arnprior.

The extension course covers knots, fibre ropes, wire ropes and chains, knots and lashings for sheerlegs, derricks and gins, building construction and appreciation of damage to buildings, use of derricks sheerlegs, gins with block and tackle, use of levers, jacks and pulleys in conjunction with gins, Sheerlegs and derricks, casualty handling, Oxy-Acetylene cutting, rescue from heights and basements, improvising shoring, use of respirators, generators and small pumps.

Forty-one members of the Vulcan Civil Defence Unit and "A" Coy Calgary Highlanders have commenced this course, which has been organized in two classes with each class meeting every other night at the Armouries for the next three weeks. It is expected that before the course is over a public demonstration will be put on in Vulcan.

During the business session which was directed by the president, Mrs. Budd, it was voted to send \$10 to be used for drugs at the Gunter Memorial Hospital in Africa; also to bring to the next meeting rolls of bandages and baby shirts which will be picked and sent to Miss Alma Hixt in Nigeria.

## Witnesses To Meet At High River

The Vulcan congregation of Jehovah's Witnesses are assisting the High River congregation prepare for a southern Alberta circuit assembly to be held this weekend, March 8, 9, and 10, at the Highwood Memorial Centre, High River. Preparations are being made for over four hundred delegates from southwestern part of Alberta and eastern B.C. Elaborate cafeteria arrangements are being made to take care of those in attendance.

A. A. McKee, presiding minister, says there are over twenty departments for taking care of all the assembly arrangements and two of these will be taken care of by the local congregation, with assistance being rendered through the volunteer service department.

Mr. McKee pointed out one of the requirements for every Christian that is set forth in the Bible is he be "apt to teach." He explained: "That means he must not only be well grounded in the Bible but he must be acquainted with the techniques of preaching. Jesus took the apostles with him on his tour of Galilee, where they could observe his teaching. Then he sent them out by twos and later after training others, sent out seventy by twos."

Saturday morning and afternoon, also Sunday morning, are devoted to house to house preaching. Other sessions feature Bible talks, ministerial training and demonstrations. An outstanding feature will be the showing of the Watchtower Society's remarkable film "The Happiness of The New World Society," featuring world-wide assemblies and work of Jehovah's Witnesses, Saturday evening, 7:30 p.m.

The highlight of this assembly is the public talk, "What Will Armageddon Mean for You," by A. F. Danley of Toronto, Sunday afternoon.

mon on Thursday. They were going to visit the Parliament Buildings while there.

Jack Bushell was in Vulcan hospital for a couple of days. He is feeling quite well again.

The roll call was answered with each member giving a Bible verse on love.

Following the business meeting an interesting contest arranged by Myrtle Haydamack was given.

The hostess assisted by Ruth Orchard, Muriel Smith and Linda Warden then served a most delicious lunch.

## Gass-Jordan Wedding Rites

The Vulcan United Church was the scene of a quiet wedding on Sunday, Feb. 17, when Joyce Marian, only daughter of Mr. and Mrs. Caryl Jordan of Vulcan, became the bride of Melvin Francis Gass, eldest son of Mr. and Mrs. Paul Hegel of Hythe, Alta. Rev. John S. Clarke officiating.

The bride entered the church on the arm of her grandfather, Mr. Robert Hay and was received at the altar by her father, who gave her in marriage. Her only attendant was Miss Irene Earl. The groom was attended by Mr. John McKinney of Lethbridge. The ushers were Mr. Ronald Brinton and Mr. Allen Jordan, brother of the bride.

The bride chose a gown of white lace and net frosted with sequins and small clusters of pearls. Her matching headpiece topped a finger-tip veil. She carried a bouquet of white carnations and

red rose buds. Miss Earl's gown was of yellow taffeta with full net skirt caught with clusters of rose buds. Her bouquet was of blue carnations.

During the signing of the register Miss Cathy Clarke sang, "O Perfect Love" accompanied by her mother, Mrs. J. S. Clarke, who also furnished the wedding music.

A reception followed in the church hall. Rev. J. S. Clarke proposed a toast to the bride, to which the groom ably responded. Mr. Hay, an old-timer of the Vulcan district was then asked to say a few words. He expressed his pleasure over the abundant kindness of the community and gave his blessing to the young couple, forecasting a bright future for them. The bride made appropriate acknowledgement.

For going away the bride chose a navy princess dress with white accessories.

Following a short honeymoon in Calgary the young couple will take up temporary residence in Lethbridge where the groom is employed by Sedco Exploration Ltd.

Out-of-town guests included Mrs. Paul Hegel of Hythe; Mrs. Tony Gass of Beemer Lodge; Mr. Robert Hay and Mrs. J. Chaput of High River; Mr. and Mrs. B. R. Jordan of Lethbridge; Mr. and Mrs. J. L. Jordan and Mr. and Mrs. Carman Jordan of Champion; Mr. and Mrs. A. W. Campbell of Mossleigh; Miss Jean Irvine and Mr. Gayle Carlson of Calgary.

The fireman's hat is a symbol of protection. So is your fire insurance policy.

When fire strikes, alert firemen are soon on their way, accepting risks themselves to protect your life and property. And when fire strikes, fire insurance steps in to offset disastrous financial loss.

Every week, some 1,400 fires break out across Canada. Companies writing fire insurance pay out more than one hundred million dollars annually in claims. And yet virtually all the fires which take the lives of more than 500 Canadians each year are preventable.

Fire insurance safeguards your property. But only you can guarantee against loss of life.

Safety pays dividends... saves lives, helps to lower your insurance costs. Be Careful.

#### MORE WEED INFORMATION REQUIRED

Much interesting and practical information regarding weeds has been uncovered by the research workers dealing with this problem, however much remains to be done.

It is now known that variations within individual species are common, often these variations react differently to control measures, which makes their recognition of great practical value. For example research workers at Wisconsin have shown that selected strains of Canada thistle respond as differently to applications of 2, 4-D as would different weeds. From the intensive study of wild oats it is now known that at least four varieties occur in Canada. It would appear as if the weed control specialist may have to consider these varieties in his research as they appear to differ in field performance, and in the number of seeds that remain dormant.

Correct identification of weeds has an important and practical bearing on control measures used, and the usefulness of those measures. A few years ago halogeton was introduced into some of the Western States. At first this poisonous plant was confused with Russian thistle, and for this reason adequate control measures were not taken until after four million acres were infested. Halogeton is now of considerable economic importance to the stockmen of Idaho, Utah and other western states. If it had been recognized for what it was during the first years of its appearance this problem would never have developed to its present scope. Correct weed identification is very important, and many of our bad weeds have gained a foothold simply because they were not recognized.

An important part of weed investigation work is to ascertain where the different species of weeds occur in Canada. From reconnaissance surveys embracing all weeds encountered there is now a remarkable amount of information on the distribution of weeds. More intensive surveys are sometime carried out to answer specific questions, as for example: For milkweed, during World War II, as a source of floss and rubber; for ragweed, to establish where hay fever sufferers might expect relief.

Thorough survey of the persistent perennial weeds in Western Canada in recent years has shown that an alarming situation exists in relation to toadflax, leafy spurge, Russian knapweed and others. This particular area of Southern Alberta is probably better off than most other areas, as far as these particular weeds are concerned. However they are present here, and will require constant vigilance and effort on the part of all concerned, in order to be kept under control.

Two weeks ago the hockey club

had to postpone a hockey game, because the mild weather took part of their ice, and last week the games had to be postponed on account of the extreme cold weather and snow. Therefore no hockey news this week.

A number of 4-H members journeyed to Calgary Wednesday evening to attend the Ice Capades. They were accompanied by a few parents and leaders.

Friends of Fred Yost are glad to see him home again and able to be about.

Mossleigh was well represented in the Arrowwood Ladies' Bonspiel, three rinks entered and each brought home a prize.

**MAJORVILLE**

(Held Over From Last Week)

Friends and neighbors will be sorry to know that Ted Roseen has been confined to hospital in Kelowna, B.C., since January and has undergone two operations. At last report Ted was coming along as well as could be expected. We sincerely hope he will soon be able to be home again.

Mrs. George Heather prepared fish for supper the other evening. We know there is nothing unusual

about that and Mrs. Heather is a wonderful cook, but after supper she had to take George to Vulcan where the doctor pried a fish bone from his throat. Happily there were no complications.

Mr. and Mrs. Sandy Henry spent a few days during the week visiting with the latter's parents, Mr. and Mrs. Geo. Greaves.

Jay Bartsch, Margaret Winch, Jeanette Greaves, Walter Vooys are among the latest victims of measles in our district.

Jim Prentice who took a rink to the Lethbridge shirtless bonspiel came back with electric frying pans. Bob Deitz was on this rink.

Another of our Majorville curlers, Aubrey Gore, also had a rink at Lethbridge and brought home one of the prizes.

We would like to add our congratulations to Mr. and Mrs. Wayne Monner on the birth of a son in Vulcan hospital. We are all happy you got your son.

**Milo-Queenstown F.W.U.A.**

Ten below zero and a stiff north wind cut the attendance to five members of the Milo-Queenstown F.W.U.A. meeting on Thursday, Feb. 21, at the home of Mrs. George Heather.

The roll call was answered by "An article I would like to make." One answer was, "I would like to make flowers," and out of that answer came a resolution to have a demonstration on making wood fibre flowers, at the next meeting. Mrs. C. Umschied was asked to contact Mrs. Williams of Gleichen in this connection so will members who were not at the meeting contact Mrs. Gilbert Vooys later on about whether there should be scissors or something to take along. Mrs. G. Vooys read the correspondence and news flashes.

It was also decided to gather material on Australia, the country used as a study project for this year and if enough interest and material can be found a scrap book will be compiled for entrance in the contest at the annual convention. Mrs. Vic Bertrand and Mrs. C. Umschied were appointed to be in charge of this project. In the absence of Mrs. Dew, Mrs. C. Umschied was in the chair. Mrs. Alf Heather was lunch convener.

The next meeting will be at the home of Mrs. John Papp.

### READ YOUR BIBLE

The Bible claims to be the inspired Word of God. "God said" occurs ten times in the first chapter of Genesis. Such expressions as "the Lord said" or "the Lord spake" or "the Word of the Lord came," occurs 3,808 times in the Bible. Over 3,000 times God signs His own signature to this Book as being His word.

Knowing this first, that no prophecy of the scripture is of any private interpretation. For the prophecy came not in old time by the will of man; but holy men of God spake as they were moved by the Holy Ghost. —II Peter 1:20-21 A.C.F.

## YOUR FUTURE IS HERE... In Alberta

IN CASE YOU'RE WONDERING how there could be more books in your hometown community library, you might want to check into the opportunities of The Library Act. Last year, there was an appropriation of \$67,000 set aside to administer the Act. A grant system is provided to approved libraries consisting of an establishment grant of \$1.00 per capita for regional libraries and annual grants of 35 cents per capita or matching book grants of up to \$500 for books and \$50 for periodicals.

OIL WELL DRILLING has been called sometimes a risky business from the financing standpoint. It also could be a risky business for the men engaged in production were not regular and extensive safeguards employed by the drilling companies and generally enforced by their own safety men. Despite this supervision there is a feeling of responsibility to Alberta citizens on the part of the Department of Industry and Labor, in seeing that these safety factors are present and operating. As result, there is a regular system of inspection, from derrick top to sludge pit, undertaken by inspectors from the department. The result is a remarkably low incidence of accidents for oil workers in this province.

THIS IS ONLY ONE INDUSTRY that has its safety precautions checked and rechecked by the department. All elevators, all factories where there are employees; in fact, all facets of industry in this province have their respective working conditions regularly under the eye of the Department's inspection branch.

Watch for "Your Alberta" again next week.

## Men Who Make Alberta

### THE FARMER

As it does with her sister Prairie Provinces, Agriculture forms the largest single industry in Alberta and the backbone of that industry is the thousands of men and women who have devoted their lives to the production of the first necessity of life... food. Since the days of the first homesteader, the man who has tilled the soil has been the key to a major portion of our economy. His faith in the future, through good years and bad, has been the cornerstone upon which our prosperity has been built. Thousands of town and city people depend on the farmer's income for their source of revenue.

As he prospers, so prosper Alberta retail outlets and industries.

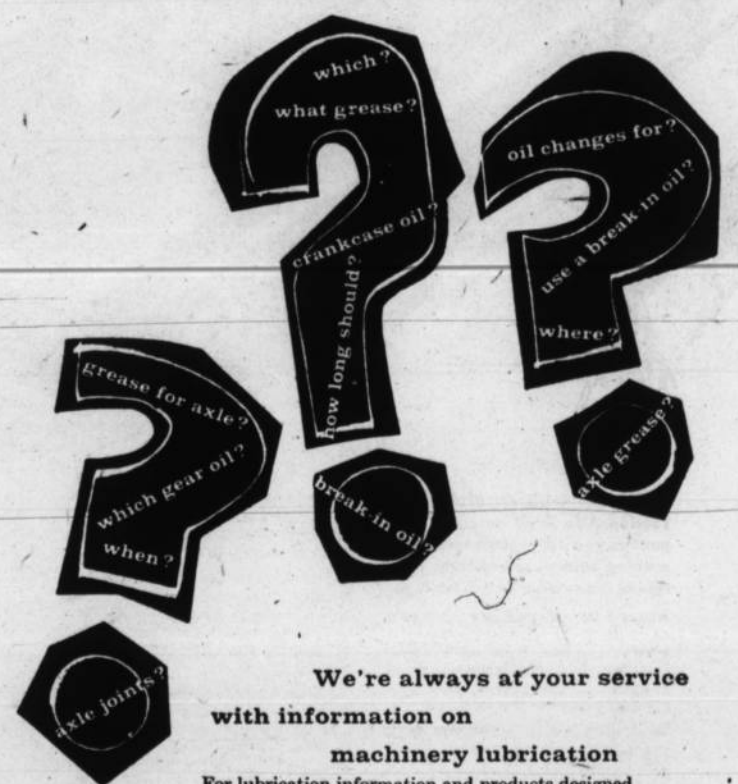

However, the direct and indirect benefits to the economy of the province does not tell the whole story of the farmers' contribution to the progress of Alberta. Farm families have found time to raise and educate many of our outstanding citizens in every field of endeavour... Sons and daughters of rural parents have gone into the legislature, the professions and industry... raised in the clean, healthy atmosphere of the country they have carried with them a love for our most priceless possession: the good, rich prairie soil of Alberta.
